--	--	---

PURPOSE AND FUNCTIONS OF THE BUSINESS UNIT	PRIMARY PURPOSE OF THE POSITION (why does the position exist – to achieve what?)
<p>This Business Unit will be primarily responsible for the implementation and coordination of the full tendering process applied on the GH2 Namibia Program's portfolio of projects. The unit will also be responsible for the development and implementation of transaction and procurement policies, establishing good governance principles and ensuring appropriate risk management frameworks are embedded within all day- to-day transactions carried out under the remit of the Transaction Management Unit.</p> <p>In addition, the unit will liaise with bidders, external regulatory bodies, and project managers to ensure that crucial project deadlines are met. The unit will implement sound financial management and compliance protocols aligned to annual budgets and the objectives of the Green Hydrogen Strategy. Moreover, the unit will aid with the mobilization of finance, the creation of de-risking financial instruments and assisting with the creation of supportive market mechanisms.</p> <p>Cross cutting functions of the Namibia Green Hydrogen Programme and the transactions unit are: green diplomacy including thought leadership articles and talks; ongoing research and market testing in this space around new energy financing and GH2 incentives.</p>	<p>This position is created to fully support the transactions unit, the Senior Financial Analyst will play a crucial role within the transactions unit, focusing on supporting the achievement of core tasks enabling an optimised capital structure for green hydrogen/green industrialisation. In addition the Analyst will support the unit in any future RPF's & RFQ's which are aiming to achieve socio-economic benefits for the country, inline with Namibia's green hydrogen and green industrialisaiton mandate.</p>
