

## Job Title: Senior Technician – Grundfos Pumps

Location: Windhoek

Job Type: Full-Time

Reports to: Head of Department: Pumps

### Job Summary:

**NEC Water & Pumps (Pty) Ltd** is seeking a highly skilled Senior Technician with expertise in Grundfos Pumps to join our team. The ideal candidate will be responsible for the installation, maintenance, troubleshooting, and repair of Grundfos pump systems across various applications, ensuring optimal performance and efficiency. This role requires hands-on technical experience, problem-solving skills, and a deep understanding of pump mechanics, hydraulics, and electrical systems.

### Key Responsibilities:

- **Installation & Commissioning:** Install and commission Grundfos pumps and associated systems as per manufacturer specifications and project requirements.
- **Maintenance & Repairs:** Conduct routine maintenance, troubleshooting, and repairs on Grundfos pump systems to ensure efficiency and longevity.
- **Diagnostics & Troubleshooting:** Identify, diagnose, and resolve issues related to pumps, motors, controls, and hydraulic systems.
- **Technical Support:** Provide expert guidance to customers and internal teams regarding system operation, maintenance best practices, and troubleshooting.
- **Documentation & Reporting:** Maintain accurate records of service visits, diagnostics, repairs, and parts used. Generate service reports and recommendations for system improvements.
- **Compliance & Safety:** Ensure all work is performed in compliance with safety standards, company policies, and manufacturer guidelines.
- **Training & Mentorship:** Mentor junior technicians and provide training on Grundfos pump systems and best practices.

### Qualifications & Experience:

- **Education:** Diploma or degree in Mechanical Engineering, Electrical Engineering, or a related technical field.
- **Experience:** Minimum 5+ years of hands-on experience working with Grundfos pumps in installation, maintenance, and repair.
- **Technical Skills:**
  - Strong knowledge of Grundfos pump systems, including centrifugal, submersible, booster, and dosing pumps.
  - Ability to read and interpret technical drawings, schematics, and wiring diagrams.
  - Proficiency in troubleshooting electrical, mechanical, and hydraulic components.
  - Familiarity with Grundfos digital solutions, controls, and monitoring systems (such as Grundfos GO, CU controllers, and remote monitoring tools).
- **Certifications:** Grundfos training certifications (preferred) or relevant industry certifications.
- **Soft Skills:** Strong analytical skills, attention to detail, ability to work independently and as part of a team, and excellent communication skills.
- **Travel:** Willingness to travel to client sites as needed. **A valid driver's license is required.**

### Benefits:

- Competitive salary based on qualification and experience
- Company-provided training and certifications
- Career growth opportunities

If you are a dedicated Senior Technician with expertise in Grundfos Pumps and a passion for delivering high-quality technical solutions, we encourage you to apply.

### How to Apply:

Applications for the above positions will only be accepted via the recruitment portal, [www.jobopportunities.net](http://www.jobopportunities.net). Your application should be accompanied by a cover letter, detailed CV, and certified copies of relevant qualifications.

**Closing date: 7<sup>th</sup> March 2025**
