

**Koryx Copper Inc. is a Canadian copper development Company focused on advancing the 100% owned, PEA-stage Haib Copper Project in Namibia whilst also building a portfolio of copper exploration licenses in Zambia.**

### VACANCY - SHE MANAGER

An exciting opportunity exists for a committed Safety, Health and Environment (SHE) Manager to join our team on the HAIB Project site in Noordoewer. The role is vital in ensuring a safe, compliant and environmentally responsible workplace.

#### **Key responsibilities: (include but not limited too)**

- Provide operational oversight and strategic leadership to ensure the effective implementation of integrated SHE policies and programs for the advanced exploration operations.
- Proactively manage all SHE risks, strengthen the safety culture, and reduce the likelihood of incidents with the objective of preventing fatalities and serious incidents and minimizing environmental impact.
- Promote a strong, proactive safety culture focused on visible leadership, risk awareness, and incident-free performance.
- Ensure all exploration activities comply with Namibian Safety, Health and Environmental legislation.
- Design, implement, and deliver safety leadership training, risk management training for employees and contractors and emergency response plans.
- Analyse and review and report safety, health and environmental performance metrics, trends, and leading indicators.
- Oversee the identification, assessment, and management of environmental risks associated with the exploration program.
- Mentoring of safety officers and safety representatives.

#### **Core competencies:**

- Strong communication, planning and leadership skills with a proactive approach
- Willingness to work on a remote exploration site on a roster basis

#### **Essential requirements:**

- Bachelor degree or equivalent in SHE or related field
- Relevant professional certifications (SAMTRAC, NEBOSH etc)
- Minimum of 15 years of progressive experience in Safety, Health, Environment, roles within, advance exploration operations.
- Demonstrated experience supporting large scale exploration operations preferred
- Strong knowledge of Namibian SHE legislation and regulations and best practice in the exploration industry.
- Proven ability to influence senior leadership and contractors.
- Support incident investigations, root cause analyses, and the development and tracking of corrective and preventive action plans.
- Advanced computer skills, particularly SHE management systems
- **Valid driver's license essential.**

If you meet the requirements for this role and are ready to contribute to the success of our company, please apply through our recruitment portal at [www.jobopportunities.net](http://www.jobopportunities.net)

Closing date for applications: **15 May 2026 @ 7:00PM**
