

Internal & External Vacancy
Fixed Term Contract: 24 Months
(Senior Exploration Geologist x1)

Uis Tin Mining Company Pty Ltd an equal opportunity employer, situated in the Erongo region, hereby invites competent & suitably qualified candidates to apply for the position of **Senior Exploration Geologist**. The position reports to the Project Manager/Geologist.

Key responsibilities:

- Supervise and mentor Exploration Geologists, Junior Geologists, Field Technicians, and contractors.
- Provide technical leadership and guidance to site teams to ensure consistent and high-quality data collection.
- Plan, coordinate, and oversee drilling activities, including drill hole design, collar positioning, and rig movements.
- Interpret and integrate geological, geochemical, geophysical, structural, and drilling data to support exploration targeting.
- Prepare and review geological maps, cross-sections, long sections, and 3D geological models.
- Develop and refine exploration targets through geological interpretation and data analysis.
- Conduct basic geological wireframe modelling from site quick logs using Leapfrog Geo.
- Review, validate, and maintain geological databases to ensure data integrity and quality.
- Implement and monitor QA/QC programmes for drilling, sampling, logging, and assay data.
- Produce high quality technical reports, presentations, and exploration updates for management and stakeholders.
- Liaise with the Project Manager and senior management regarding project progress, priorities, budgets, and operational requirements.
- Coordinate exploration activities with drilling, survey, environmental, and laboratory service providers.
- Oversee contractor performance and verify invoices, work completion, and contractual compliance before approval.
- Train and develop junior staff in geological logging, structural geology, geotechnical logging, geological mapping, sampling procedures, QA/QC protocols, and data management.
- Ensure all exploration activities are conducted in accordance with health, safety, environmental, and community relations requirements.
- Support environmental management initiatives and ensure exploration activities minimise environmental impact.
- Perform any other exploration, technical, operational, or project related duties as assigned by management.

Key requirements:

- Grade 12 certificate.

- A recognized Bachelor of Science Degree in Geology.
- A minimum of 5 years experience in the exploration industry.
- Good verbal and written communication skills.
- A valid code BE driver's licence.
- Ability to work in remote field locations and under challenging environmental conditions.
- Willingness to travel and work on roster schedules as required.
- A valid police clearance certificate, not older than 6 months.
